

Berry RETRACTABLE Shades

Fully Motorised - Open/Close in Minutes

HEALTH, SAFETY & COMFORT

- ✓ Lowers UV and the risk of skin health
- ✓ Consistently reduces the sun's radiant heat
- ✓ Lowers the temperature of the green
- ✓ Provides a comfortable playing environment

OPERATION

- ✓ Fully motorised easy to use one switch operation
- ✓ Ease of retraction to benefit good weather
- ✓ Low cost compared to solid structure

FOOTINGS

Steel frames and supporting struts are concreted in the ground in compliance with the consulting engineers' design and specifications.

TENSIONING WIRES

Made from 16mm, 1x19 marine grade 316 stainless steel cable with a minimum breaking strain of 21,000kg, swaged onto stainless steel cable ends.

FABRIC

Canopies are made from tear resistant 80% UV rated commercial shade cloth.

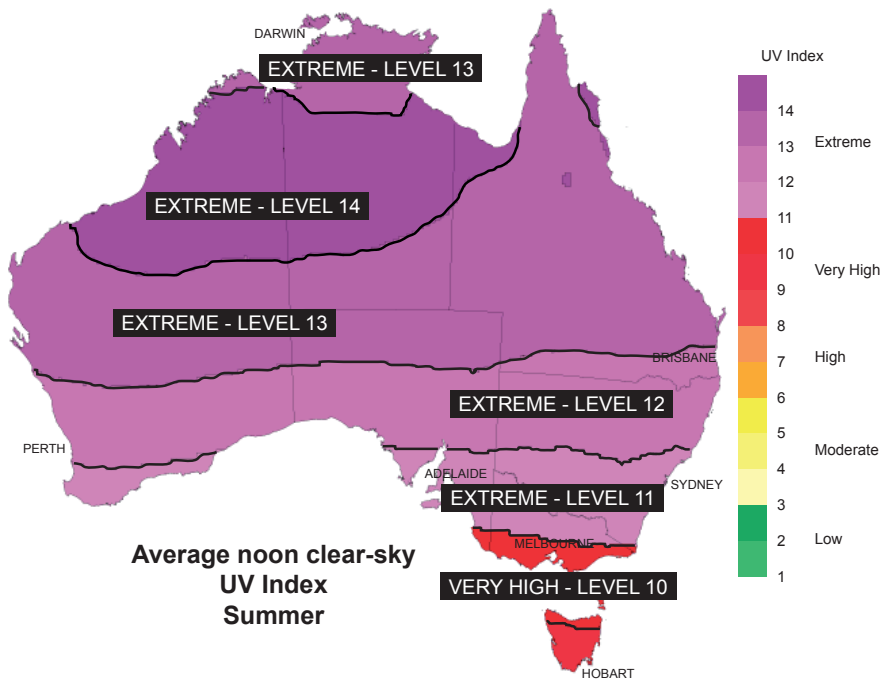

MOTORS

The system uses 7 x 1.5 Hp motors enclosed in a waterproof housing.

Berry Bowls Systems Pty Ltd specialises in the construction and installation of synthetic lawn bowling greens of all types. Recognising the importance of health and safety to bowlers, BBS has co-ordinated with the Queensland manufacturer of the Shademaster System to supply the system throughout Australia.

UV Index	Category	Protect Yourself in 5 ways
11+	Extreme	S lip on sun-protective clothing
8,9,10	Very High	S top on SPF30+ sunscreen. Reapply every 2 hours
6,7	High	S lap on a broad-brimmed hat
3,4,5	Moderate	S ee shade
1,2	Low	S lide on wrap-around sunglasses
		Sun protection is generally not needed unless outside for extended periods

THE BERRY RETRACTABLE SHADES AT A GLANCE:

Heat and Sun protection

- ✓ Turns those hot days into cool days
- ✓ Provides a large protected area that lowers the risk of UV radiation
- ✓ Consistently reduces the sun's radiant heat
- ✓ Lowers the temperature of the green

Quality & design looks great

- ✓ A unique and strikingly different design
- ✓ Fittings are stainless steel marine grade
- ✓ Hot dipped galvanized columns for maximum weather protection
- ✓ Low maintenance
- ✓ 5 Year warranty on complete structure

Fully electric & retractable

- ✓ Fully motorised key operation, open/close

Adds aesthetic & financial value

- ✓ Increases attendance levels of members & guests
- ✓ Assists in the reduction of maintenance costs
- ✓ Less water for natural greens and for watered synthetic grass

Creates usable outdoor space

- ✓ Creates a sun safe bowling experience
- ✓ Provides a comfortable playing environment
- ✓ Reduces the danger of player dehydration
- ✓ Eliminates sudden heat exhaustion
- ✓ Gives you the flexibility to have sun or shade any day, any time

Australian made

- ✓ Designed and manufactured in Queensland to withstand the harsh Australian environment
